

# Tutorial:

---

1. First, in your `.html` file, Include the `.js` plugin as:

```
<script src="./js/plugin.js"></script>
```

---

2. Next, you can define your own snippets inside a separate `<script>` in order to change style contents as follows:

## **For Product Name And Product Style:**

In order to change style of product Name And Price, Add snippet to your `.html` file as:

```
var productStyle = new ProductStyle({
  productName: {
    fontFamily: 'Times New Roman', Times, serif',
    fontStyle: 'normal',
    fontSize: '10px',
    fontWeight: 'normal',
    color: 'red'
  },
  productPrice: {
    fontFamily: 'Times New Roman', Times, serif',
    fontStyle: 'normal',
    fontSize: '10px',
    fontWeight: 'normal',
    color: 'blue'
  }
});
```

**Before Applying Snippet:**

PETERMAN JACKET - NAVY  
AUD \$120.96

ADD TO CART

PETERMAN JACKET - NAVY  
AUD \$120.96

ADD TO CART

PETERMAN JACKET - NAVY  
AUD \$120.96

ADD TO CART

**After Applying Snippet:**

AUD \$120.96

ADD TO CART

PETERMAN JACKET - NAVY  
AUD \$120.96

ADD TO CART

PETERMAN JACKET - NAVY  
AUD \$120.96

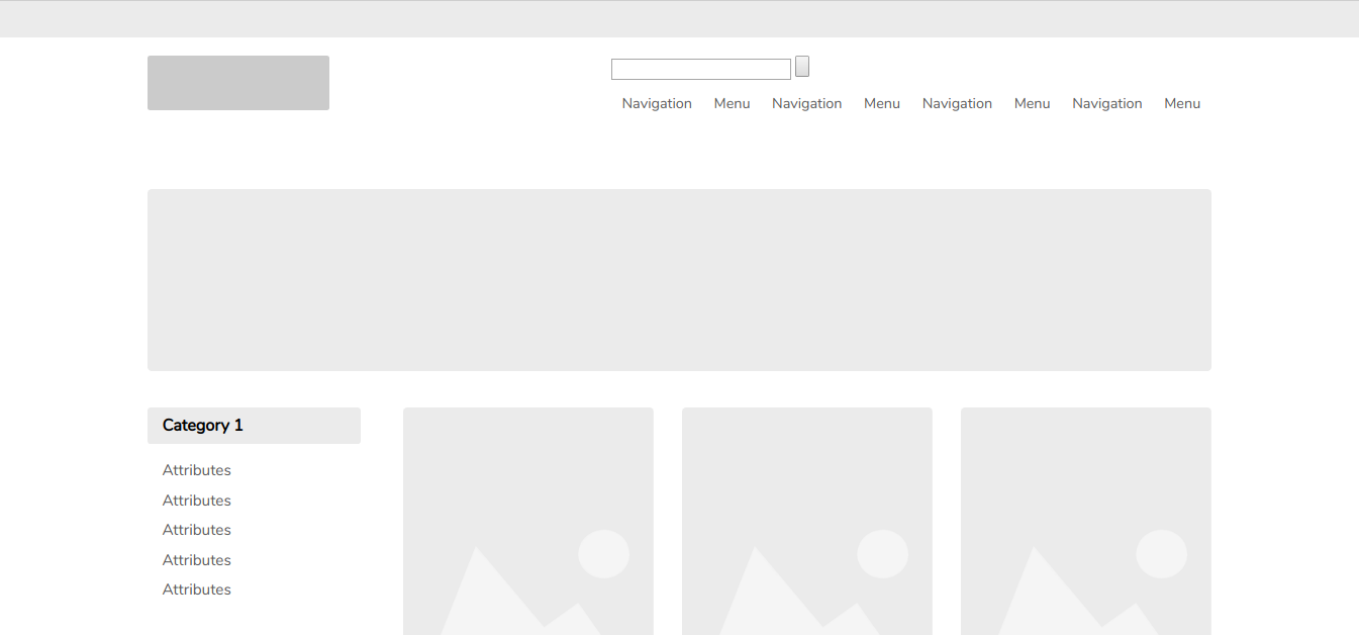

ADD TO CART

**For Notification Bar On Top:**

In order to add Notification Pop Up at top, Add Snippet as follows:

```
var notificationBar = new NotificationBar({  
    message : 'Custom Message',      //For Custom Message  
    bgColor: '#cccccc',              //For Background Color Of PopUp.  
    txtColor: '#000000',             //For Text Color  
    height: 40,                      //For Height Of Pop Up  
    closeButtonText: 'click me to close' //For Text In Close Button  
})
```
