

# SUBODH SINGH

---

Senior Frontend Developer

subodh@digitalaptech.com | 📞 +91 9836536084

## PROFESSIONAL SUMMARY

Result-oriented Senior Frontend Developer with over 8 years of experience in designing and developing scalable, user-centric web and mobile applications. Adept at utilizing modern frontend frameworks like Angular, Vue.js, and Ionic to deliver highly interactive, optimized solutions. Proven track record of leading teams and projects, implementing industry best practices, and delivering solutions on time and within budget. Focused on continuous improvement and innovation in a fast-paced, multinational work environment.

## WORK EXPERIENCE

### Senior Frontend Developer

Digital Aptech Pvt Ltd – April 2016 – Present

- Spearheaded the development of web and mobile applications across multiple verticals including e-commerce, logistics, and task management systems.
- Enhanced user experience for 5+ mobile apps using Ionic and Vue.js frameworks, leading to a 20% increase in user retention.
- Collaborated with cross-functional teams across different time zones, ensuring seamless integration and deployment in agile environments.
- Led the migration of legacy applications to Angular, reducing load times by 35% and improving overall performance.
- Optimized front-end architecture, decreasing time-to-market by 15% through continuous integration and automated testing.

### PHP Developer

Infobot Technologies – November 2013 – April 2016

- Built and maintained dynamic web applications using PHP and CakePHP, ensuring security and scalability.
- Integrated third-party APIs and payment gateways for e-commerce solutions, handling

over 10,000 transactions monthly.

## Project In-Charge

Robotics Automation Pvt Ltd – October 2012 – March 2013

- Led a team of developers and engineers to deliver automation solutions within strict deadlines for Fortune 500 clients.
- Conducted system design and testing to ensure compliance with industry standards.

## PROJECT HIGHLIGHTS

### bcuz.us – Fundraising Platform

- **Description:** Developed a fundraising platform where users can create events to raise funds. After the funds are successfully raised, the organizer uses the money to select a restaurant to host a meeting, feed participants, and distribute the raised funds.
- **Technologies Used:** Next.js, React, Node.js, Payment Gateway Integration.
- **Key Features:**
  - Real-time event creation and fund tracking.
  - Integration with restaurant selection and booking system.
  - Secure payment processing for fund transfers.
  - Server-side rendering (SSR) for improved SEO and performance.
- **Impact:** Improved user engagement by 30%, streamlined the fundraising process, and reduced platform loading times by 25%.

### Toodoo Task Management Platform

- Tech Stack: Vue.js, Node.js
- Led the frontend development of a task management app that improved team collaboration and workflow tracking. Increased task completion rates by 30%.

### Taxi App Admin Panel

- Tech Stack: Angular 4, Node.js
- Developed an admin panel to manage driver and rider activities, integrated with live maps and data analytics. Achieved a 25% reduction in operational issues.

## CORE SKILLS

- Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3, SASS
- Frameworks & Libraries: Angular, Vue.js, Ionic, Cordova, Node.js, Express.js
- Tools & Platforms: Git, Docker, Webpack, AWS, Firebase, Azure
- Databases: MySQL, MongoDB
- Development Practices: Agile (Scrum), TDD, BDD, CI/CD pipelines

## EDUCATION

Bachelor of Technology (B.Tech) – Electronics & Communication  
Calcutta Institute of Technology, West Bengal  
2008 | GPA: 8.24/10

## CERTIFICATIONS

- OOP in C++ (IBM)
- Core Java (Globsyn Technology)
- CCNA (Cisco)

## LANGUAGES

- English: Fluent
- Hindi: Native
- Bengali: Conversational

## PERSONAL DETAILS

Date of Birth: 14th August 1986

Nationality: Indian

Address: 67/A/2 Devendra Ganguly Road, Howrah, West Bengal, India
